

April 9, 2007

To all our loyal customers & vendors,

Effective immediately, the company name Safe Flight, Inc. has been changed to Safe Fuel Systems, Inc. There is another Safe Flight (Instruments) in NY which has caused much confusion with our customers and vendors.

Everything else will remain the same; you will still receive the great service and quality you have in the past. Please update your system and accounting records to reflect the name change.

P.S. We hope you like our new logo too!

Best regards,

Lina Angel
Administrative Assistant
Safe Fuel Systems, Inc.
